CLUB RECORDS

Attached to this Capers are two fairly old tables of our athletic records. These go back to the mid '90s and were painstakingly compiled at the time mostly by Life Member John Dwyer.

1. The Club Open records. These can be set anywhere while the athlete is a current member and competing as such.
2. The Club Championship Records. These can only be set in our Club Championship races therefore in nearly every case set on our short grass track with tight bends, which we have previously calculated adds about 5% in time from 800m up.

We have searched some results for subsequent superior performances to those in the last publication of our records. We do not think there are all that many however we did find a few.

Open Records

Discus		Shot Put	
Vet Men Dave McMillan 28.78 3/16		Vet Men Dave McMillan 9.88 3/14	

Club Championship Records

Discus		Shot Put	
Vet Men Dave McMillan 28.78 3/16		Vet Men Dave McMillan 9.88 3/14	

Generally records shown as set since the compilation of the table around 1996 may need verification.

Additionally set out below is a table based on some known Over Age 50 Open Records which were originally established nearly 25 years ago. Some updates have been made to the original chart but again the list may not be complete and correct, especially in respect of any performances in these last 25 years.
